

LOVE GIVEN TO ANOTHER, SHE WANTED TO DIE

Mother of Mrs. Zelma O'Hara
Tells Story of Her Daughter's
Unhappy Existence.

The age-long story of unrequited love is held by Mrs. J. E. McNeal of 530 Twelfth street as responsible for the attempt of her daughter, Mrs. Zelma O'Hara, aged 25, to end her life in Chicago early Saturday morning by swallowing bicarbonate of mercury tablets in a suicide pact with a girl friend.

Mrs. McNeal told the police the two girls went to the wash room together, returning shortly after and informing the escorts that they had taken the mercury tablets. The two men fled and their identity was lost to the police as both girls refused to talk. Prompt action by the landlady in administering antidotes to the poison is believed to have been effective in saving the two lives.

Zelma's husband is now living in Minneapolis.

GLORY OF "BLUE AND GOLD" TOLD IN MARCH SONG

J. Frazier Vance of Class of 1922
Author of Augustana College Tribute.

The glory of "the blue and gold" is fittingly told in the new march song of Augustana college, a tribute to the alma mater, words and melody of which are the work of J. Frazier Vance of the class of 1922.

The song, entitled "The Blue and Gold," was first introduced to the student body at a pep meeting at the college last fall. Its immediate popularity resulted in the demand for its publication. It was placed in the hands of a Philadelphia publishing concern, and recently arrived from there. The Augustana Book Concern is printing the cover, and the sheets will be ready for distribution Monday. The arrangement of music for the piano is the work of J. Frank Fryinger of the Augustana conservatory of music.

Spirit Suggested.

He has provided two choruses, one for football and one for basketball. In the words of the verse he has preserved the enthusiasm of the choruses, while mingling it with a quiet force and dignity.

Mr. Vance is the Augustana correspondent for The Argus.

The NEW EDISON

"The Phonograph with a Soul"

Realism! Only realism can make the phonograph as wonderful a source of music as all the artists in the world.

Realism! How can you know the phonograph that achieves Realism? The Official Laboratory Model of the New Edison has proved its Realism by direct comparison with living artists. The singer sings—or the instrumentalist plays. Suddenly the artist stops, and the New Edison continues alone.

Four million people have witnessed these remarkable tests. They

found that only by watching the artist could they tell when he was singing—or playing—and when the New Edison was RE-CREATING his performance.

The instrument we'll show you is an exact duplicate of the instruments which triumphed in these comparison-tests. It will sustain the same test. We guarantee it to be capable of the same beautiful and astounding Realism—and that is guaranteeing everything your heart desires.

Come in and hear it.

Our Budget Plan solves the money problem in buying your New Edison. Let us tell you about it.
